

CITY OF CHINO

BENEFITS GUIDE

January 1, 2024 – December 31, 2024

Eligibility and Enrollment

Eligibility for health benefits is based on your employment status and date of hire (appointment). You must work a minimum of 30 hours per week on a regular basis to be eligible for health insurance. Part-time employees who qualify for health insurance through the Affordable Care Act (ACA) may receive a City subsidy to assist with premium payments.

Eligible family members for health insurance include: Spouse, registered domestic partner, children up to the age of 26 (natural, adopted, domestic partner's or step), children up to the age of 26 if there is a parent child relationship, and the employee is the primary care parent, and certified disabled dependent children age 26 and older. If you plan to enroll dependents, be prepared to provide supporting documentation to Human Resources, such as copies of a marriage certificate, birth certificate, etc. CalPERS also requires you to provide social security numbers for each enrollee.

Ineligible family members include: Former spouses, dependent children aged 26 and older, children of a former spouse (unless there is a certified parent-child relationship), foster children, grandparents, parents. Note: It is against the law to enroll ineligible family members.

Additional Enrollment Opportunities

New employees and their eligible dependents may initially enroll in a CalPERS health plan upon date of appointment (date of hire) and within 60 days. However, additional enrollment options and guidelines are described below.

Open Enrollment

The annual Open Enrollment period is typically in the fall, from September to October. This is the time to make any changes to your health coverage without experiencing any qualifying life events. The changes become effective on January 1st of the following calendar year. Human Resources sends out communication regarding the Open Enrollment period to all eligible employees a couple weeks before it commences, and it is the employee's responsibility to submit their changes and supporting documentation before the deadline.

Special Enrollment Periods

Refers to certain types of enrollment after your initial enrollment, and outside of the annual Open Enrollment period. You may be eligible for a special enrollment under the following circumstances:

- **Loss of other health coverage:** If you initially declined or cancelled enrollment for yourself or your dependents because you had other private or CalPERS health coverage at the time, you may be eligible to enroll in a CalPERS health plan if the other coverage is ending. To qualify you will need to request enrollment within 60 days after the other coverage ends and provide supporting documentation to Human Resources.
- **You have new family members:** Upon initial enrollment, you must enroll yourself and all eligible family members. If you later have a new dependent as a result of marriage, domestic partnership registration, birth, change of custody adoption, or placement for adoption, you may enroll yourself and all eligible dependents within 60 days of that event. The effective date for a Special Enrollment is the first day of the month following the date Human Resources receives your enrollment form.
- **Late Enrollment:** If you decline or cancel enrollment for yourself or your dependents and the Special Enrollment exceptions do not apply, your right to enroll (or add dependents) will be limited. You must either wait a 90-day period or until the next CalPERS Open Enrollment period. The earliest effective date of enrollment will be the first of the month following the 90-day waiting period or January 1st following the Open Enrollment period.

NOTE: Employees are responsible for ensuring that all health enrollment information is accurate and for reporting any changes to Human Resources in a timely manner.

The PPO, or preferred provider plan, offers the convenience and flexibility of visiting any licensed dentist anywhere. Covered services are paid based on a percentage. The HMO style plan gives you a choice of skilled, primary dentists from the DeltaCare USA network, and you are required to select a primary care dentist.

All full-time employees and their dependents are eligible for vision insurance through VSP. The City of Chino offers a base and buy-up plan. The buy-up plan is nearly identical to the base plan; however the buy-up plan provides an allowance for contact lenses or additional frames.
